Baker Establishment 1

North is to play 3NT. East leads the ♠J.

Winners: ♠=3 ♥=1 ♦=0 ♣=1 Total = 5

You need 4 more winners, and they will come from the ♦ suit once you have knocked out the ♦ A. But there is one danger to avoid - if the defenders don't take the ♦ A on the first round dummy won't have a ♦ to lead back to your hand. So to make sure you have an entry back you win the first trick with dummy's ♠K, saving your ♠Q.

Next start playing ♦s, first ♦Q, then ♦K. Assume the defenders take their ♦A on the second round.

Win whatever they now play and come to your hand with the ♠Q to enjoy your three established ♦s for 9 tricks total.

Just don't foul up on your ♠ entry.

4 ♠ by East

(pulling South's last trump), and discard a ♥ or ♣ loser on the ♦ 8.

And once again you had to pay close attention to entries.

Baker Establishment 2

You were counting on West to have a little better hand than that\East is to play 4 ♠. South leads the ♠ 6, North plays ♠ 4.

Losers: ♠=0 ♥=2 ♦=0 ♣=2 Total = 4

You must find a place for one of those losers and that will mean establishing the ♦ suit. If ♦ s split 3-3 that will be pretty easy so you should plan to deal with a 4-2 split. Dummy entries are limited so win the first trick in your hand with the ♠ A.

Before you pull any trumps you start on the ♦ s by playing ♦ A, ♦ K and then ruffing a ♦ with the ♠ K. South follows to the first two, then discards a ♥.

Play a small trump to dummy's ♠ T (North shows out) and ruff another ♦ with the ♠ J.

Dummy's last ♦ is now good. Play a ♠ to the ♠ Q,

3 NT by North

Baker Establishment 3

North's ♣ bid was Stayman, but he didn't match ♠s. South is to play 3NT. West leads the ♦ J, East plays ♦ K.

Winners: ♠=2 ♥=1 ♦=2 ♣=3 Total = 8

With the ♦ K onside you have 8 tricks, and only need one more. If ♣s split 3-3 you can get 2 extras and make an overtrick. But when you are missing 6 cards they are more likely to be 4-2 than 3-3. Since you only need 4 ♣ tricks you should establish the suit with a duck.

Win the ♦ A and play a small ♣ from each hand.

The defense gets a cheap trick in ♣s but you don't mind because you still have a small ♣ for an entry to dummy. You win whatever they return and take the rest of your winners, including 4 tricks in ♣s!

Baker Establishment 4

West is to play 3NT. North leads the ♥ 5, South plays the ♥ 2.

Winners: ♠=2 ♥=2 ♦=1 ♣=2 Total = 7

You are very lucky. Apparently North led from ♥ K Q so you won an undeserved ♥ trick. Now, if ♣s split 2-2 you can make 12 tricks! But hold it a minute. If you play dummy's two top ♣s and they DON'T split 2-2 you will only win two ♣ tricks and the contract will fail. Instead you should play a small ♣ from dummy right now. The defenders will win the trick easily, but you will win their return and you will still have a ♣ to get to dummy's 6 ♣ winners!
