4 ♥ by North

Baker 2over1 6

South opens 1 ♠ and North, with 14 points, responds 2 ♥. Note that North is not permitted to make this bid without a 5-card or longer ♥ suit.

South, knowing that North has 5, bids 3 ♥ to confirm the trump suit.

North has a minimum strength hand with no slam aspirations, so he uses Fast Arrival and bids 4 ♥. South is also satisfied to just play at game.

2/1 is a good bidding method, and here, 4 ♥ is a good contract. But you can see that it is not a laydown - there is no bidding system that will always reach T0% contracts. In this hand a 3-3 ♦ split will provide the Tth trick, or if that fails, taking 2 ♠ finesses provides a 75% chance of success.

4 ♥ by South

Baker 2over1 7

South has 13 points and naturally opens 1 ♠.

North, with 15 points, would bid 2 ♥ in standard bidding, but with 2/1 this promises a 5-card suit. So instead, North responds 2 ♣, forcing the partnership to game. Note that holding two 4-card minors North bids them up-the-line, just as in standard bidding.

South has a nice 6-card ♠ suit, so you might think he would rebid them. But Opener's first responsibility with his second bid is to show a 4-card Major if he has one. This isn't much of a suit, but South still bids 2 ♥.

You can see why it is important for Opener to show a 4-card Major. Since North couldn't bid ♥s in her first response the fit would have been lost if South had not mentioned the suit. North now confirms the trump suit with a 3 ♥ bid, and South shows his minimum by just bidding the game.

3 NT by South

Baker 2 over 1 8

South opens 1 ♥, his 5-card Major. North, with 14 points, naturally responds 2 ♦, forcing the partnership to game.

South next bids 2 ♠, showing the other Major suit. In standard bidding South would not be able to bid the ♠s since that would be a Reverse and South is far too weak to Reverse. But after a 2/1 Response the concept of a Reverse does not apply, and the priority of showing a 4-card Major certainly does apply.

North assumes South to be 4-5 in the Majors, so she cannot support either. She bids 2NT. If South actually has 6 ♥s (or 5 ♠s) he will rebid the suit. North's 2NT bid guarantees a stopper in the fourth suit.

South does not have either 6 ♥s or 5 ♠s so he just bids 3NT. Notice that South never once considered the possibility of passing what might be a misfit - the initial 2/1 response unconditionally forced the partnership to reach a game somewhere.

3NT by South

Baker 2over1 9

South opens 1 ♠, his 5-card Major. North, with 14 points, responds 2 ♣, a 2/1 force to game.

South next bids 2 ♥, showing the other Major suit.

North assumes South to be 5-4 in the Majors, so she cannot support either. She cannot bid 2NT without a stopper in ♦s. So North bids the fourth suit, 3 ♦, telling South she knows she must make a bid, but can't find anything appropriate.

South now must find a bid. His choices include rebidding the 5-card ♠s, supporting North's ♣s with a doubleton Queen, or bidding 3NT with the ♦ K 6 as a stopper. He chooses this last option. It appears that 3NT is the best game for these two hands.

6 ♥ by North

Baker 2over1 10

South opens 1 ♠, her 5-card Major and North responds 2 ♥. South knows this is a 5-card suit, and bids 3 ♥, confirming the 8+card trump fit.

Once the trump fit is known, North revalues his hand to about 19 points. He makes a slam try with a control-showing bid of 3 ♠. He knows South won't take this as ♠ support since the partnership has agreed that ♥s are going to be trumps.

South now shows her control by bidding 4 ♣.

That was what North needed to hear; when Blackwood uncovers two Aces he bids 6 ♥.

The slam is a good one. If either the ♠Q or ♣K is right there are 12 tricks by way of a finesse. But the best way to play the hand would be to try to establish a ♠ in the South hand, and if that fails try the ♣ finesse.
