6 NT by South

Lead: ♠ 10

South is to play 6 NT. West leads the ♠T.

Winners: ♠ = 2 ♥ = 5 ♦ = 2 ♣ = 1

Total = T

You need two more winners and the best bet is to try to pick up three ♣ tricks. You will need the ♣K and ♣Q to lie in different hands, or both of them to be with East. That is about a 75% chance.

But you may need to make 3 finesses, so that means 3 entries to dummy, all of which must be in the ♥ suit. Can it be done?

Of course it can. Win the ♠ lead in your hand and play the ♥K, overtaking with dummy's ♥A. Now play a ♣ to your ♣9, which loses to West's ♣K. West plays another ♠.

Now play the ♥T, and when West follows you are safe to overtake with dummy's ♥J since you can tell that East did not start with 4 ♥s. In fact, East shows out so it is West who started with 4 ♥s but that won't be a problem for you. Play another ♣ from dummy, finessing the ♣T which wins.

Now play your ♥3 toward dummy, finessing the ♥8 when West follows with a low card. Play dummy's two ♥ winners, discarding ♦s, then the low ♣ to your ♣J. Wow.

And as you have figured by now, assessing how many entries you are going to need is big part of that plan. Like here, if you had won a single ♥ trick in your hand then you wouldn't have had the three entries to dummy.

6♠ by South

Lead: ♦ Q

Pretty bold bidding by South, but partner DID make a positive response. South is to play 6♠. West leads the ♦ Q.

Losers: ♠=0 ♥=0 ♦=2 ♣=1 Total = 3

OK, the plan is to get over to dummy for those two ♥ winners.

If you just play a small ♣ toward the ♣ Q that will work whenever West holds the ♣ K.

How about playing ♣ A and a small ♣, planning on ruffing your third ♣ to get to dummy? Naaah. They will win the second ♣ and play a trump.

There is actually a play that is 100% certain, no matter who holds the ♣ K.

Win the opening lead and lay down your ♣ J. The defense is helpless. If they take the ♣ J with the ♣ K, then you have a dummy entry in the form of the ♣ Q. If they refuse to take the trick you will counter by next laying down the ♣ A, then ruffing a third ♣ to get to dummy and the two golden eggs.

My dream is that someday I will get a chance to use it at the table. If you ever do be sure and email me.
