Baker Signals 1

You are East. The bidding has been as shown. You led the ♠ K, West played the ♠ 7 and North the ♠ 5.

What do you play to the second trick?

When you have made your choice

You can see the ♠ 6, ♠ 5, ♠ 4, ♠ 3 and ♠ 2. So the ♠ 7 is West's lowest ♠, he is doing his best to discourage you from leading the suit again.

North held up with ♠ A J x, hoping you would play the suit again and give him two tricks.

If you play the ♦ T West will win the ♦ A and return a ♠, allowing you to drive out North's ♠ A while you still have the ♣ A for an entry.

falsecard to tempt you into playing the suit again. This isn't too likely, but if it happens just congratulate East for the fine play.

Baker Signals 2

You are South. The bidding has been as shown. You led the ♠ K, North played the ♠ 7 and East the ♠ 8.

What do you play to the second trick?

When you have made your choice

You cannot see the ♠ 5. The most likely reason is that North has it, and his ♠ 7 is an encouraging signal. The only reason he would encourage you is if he held either the ♠ A or ♠ J.

Together, you two continue to play ♠ s to drive out East's ♠ A. When you get the lead with your ♣ A you will cash your ♠ winners and North will still have the ♦ A for some icing on the cake.

There IS another possibility if East is a better than average Declarer. North just might hold ♠ 9 7, giving East ♠ A J 8 5. East played the ♠ 8 as a

Baker Signals 3

You are East. The bidding has been as shown. Partner led the ♣A, dummy played the ♣4 and it is your play.

When you have made your choice

West will play the ♣Q on which you will play the ♣2.

West now knows you started with a doubleton, and more importantly, he also knows you want him to play a third ♣.

When he next plays the ♣K dummy will ruff, but whatever card he ruffs with you will have established a trump trick. When you later win your ♠K that will be down 1.

Baker Signals 4

You are North. The bidding has been as shown. You led the ♦5, South wins the ♦Q and returns the ♦7. West holds up his ♦A until the third round. He then plays the ♣Q and it is your play.

When you have made your choice

You assume (hope) that South holds the ♣A. If he does then he will need help from you to decide which trick he should win. You play the ♣8 first, and the ♣2 next to show an even number.

If South is paying attention he will know to win the **THIRD ♣**. This will kill dummy's ♣ suit, and with it West's chance of making 9 tricks.

Baker Signals 5

You are West. The bidding has been as shown.

Partner led the ♣A, dummy played the ♣2 and it is your play.

When you have made your choice

If you signal with the ♣9 East will continue with the ♣K and another which you will have to ruff. You will give up your NATURAL trump trick by doing so. Worse, you will allow South's ♣J to be established as a winner that North can later discard a ♦ on.

Much better to play low. Partner will surely switch to a ♦, and North will probably finesse, though it doesn't matter whether he does or not. You will win the ♦K, return the ♣9 back to East's ♣K, and still have your trump trick for later.
