time the finesse works, and even more happily both defenders follow suit. That means the rest of the ♦s are good and you make an overtrick.

If looked different because of the two finesses you took.

Baker Establishment 13
 North is to play 3NT. East leads the ♠4.

Winners: ♠=2 ♥=2 ♦=1 ♣=2 Total = 7

You need two more winners. They cannot possibly come from ♠s, ♥s, or ♣s since one defender must hold at least 4 cards in each of those suits. So your two extra winners must come from the ♦ suit.

There is no reason to hold up on the ♠ since the ♥ and ♣ suits also have just two stoppers. You win the ♠A.

Your best play next is to finesse the ♦T. This may gain a trick by virtue of the finesse if East happens to hold the ♦J, but primarily you are working to establish the ♦ suit. Assume West wins the ♦J and returns a ♠.

Again don't hold up. Take the ♠K and lead another small ♦, finessing with dummy's ♦Q. Happily this

original play of ducking one trick.

Baker Establishment 14

South is to play 3NT. West leads the ♠4. East puts on the ♠A and returns the ♠8.

Winners: ♠=2 ♥=1 ♦=2 ♣=1 Total = 6

Needing three more winners you are going to have to establish the ♣ suit. You are also going to have to be lucky!

You win the second ♠ and play your ♣Q. West covers with the ♣K. What do you do next?

You DUCK. If you take the ♣A now you will never get back to dummy to enjoy those other ♣s. So let West have the ♣K. You win his return, (probably a ♠), and play ♣J, then ♣9 to dummy's ♣A. As long as ♣s split 3-2 you will get the three winners you need.

West's play of the ♣K may have made you want to jump up with the ♣A, but you must stick to the

But, it is your only chance to make the contract.

Baker Establishment 15
 North is to play 3NT. East leads the ♠2. West puts on the ♠J.

Winners: ♠=2 ♥=1 ♦=2 ♣=1 Total = 6

You need three more winners. It is possible your fourth ♦ can be established, but that needs a 3-3 split. It's also possible that the ♣ finesse will work, and also the ♥ finesse. Since you need the ♥ finesse anyway you should go ahead and try to establish the ♥s.

Win the first trick with your ♠Q and play a low ♥, ducking in dummy. West will no doubt win a cheap trick but no matter. When you next gain the lead play your other low ♥ and finesse the ♥Q. Assume this wins (if it doesn't you will be going down for sure). Play the ♥A and if both defenders follow your other 2 ♥s are good and your contract is made.

duck), and another ♦, (which they will probably take). Win whatever they return, pull trumps ending in dummy, and enjoy your 3 ♦ winners.

Baker Establishment 16

Some pretty aggressive bidding gets you to a challenging game. South is to play 4 ♥. West leads the ♠K, overtaken by East's ♠A. East returns a ♠ to West's ♠T, and he then plays the ♠Q.

Losers: ♠=2 ♥=0 ♦=1 ♣=3 Total = 6

With 2 tricks already gone you still have 4 losers. You could consider ruffing the 3 ♣ losers in dummy but that would just create a trump loser even when trumps are splitting 3-2. So it looks like you will have to establish the ♦ suit for discards. You could pull trumps and then play your ♦Q, hoping the defenders will grab their ♦A immediately. But unless they are real novices they will hold it up one round and you'll no longer be able to reach dummy.

The solution is to establish the ♦s before you use up dummy's ♥K.

Ruff the third ♠, then play ♦Q, (which they will

the good ♥s.

Baker Establishment 17

South's 3♦ bid was a transfer to ♥s, and his 2NT bid showed exactly 5 ♥s with an invitational strength hand. North is to play 3NT. East leads the ♠6, you play dummy's ♠9 and West contributes the ♠2.

Winners: ♠=2 ♥=0 ♦=1 ♣=2 Total = 5

The math is easy - you need 4 ♥ tricks. And you should be able to manage that by driving out the ♥A. But the defenders will probably hold up one or two rounds when you play on ♥s, so you must have an outside entry to dummy.

The ♠ Q J will provide that entry IF you make sure to win the first trick with your ♠A as an unblocking move. If you don't do so then East will be able to keep you out of the dummy and away from those good ♥s.

But if you win the first trick with the ♠A, then dummy's ♠ Q J will provide a guaranteed entry to

Now when you attack ♥s a defensive holdup won't hurt you because you have TWO ♠ entries, the ♠J by a finesse and the ♠K.

So the ♠ finesse is an odds-on play to get a second dummy entry.

Baker Establishment 18

South is to play 3NT. West leads the ♠2, you play dummy's ♠4 and East plays the ♠8.

Winners: ♠=3 ♥=0 ♦=2 ♣=2 Total = 7

Needing just two more winners it looks straightforward to establish dummy's ♥ suit. Suppose you win the ♠T and play the ♥9. If the defenders win this trick you are home free. You win their ♠ return with your ♠A, then continue ♥s to drive out their last stopper while you still have the ♠K as a dummy entry.

This won't work against good defenders, who will hold up on the first ♥ trick and win the second. Then when they continue ♠s you won't have another ♥ to return to dummy, so while you can use the ♠K as an entry to establish the ♥s you will never get back to use the good ones.

Instead you should win the first trick with your ♠A.
