3 NT by South

Baker 100Deals 5
You are North and it is your bid. Decide what you would say, then on BID.

You have a very solid 17 points and a balanced hand. You open 1NT. Partner responds 3NT and you pass.

North plays 3NT. East leads the ♥J. You hopefully put on the ♥Q, but West plays the ♥K.

You hopefully put on the ♥Q, but West plays the ♥K.

Winners: ♠ 0 : ♥ 1 : ♦ 1 : ♣ 4 : Total = 6

A hold-up won't help unless West had a doubleton ♥, giving East a 7-card suit. So you win your ♥A. The ♠ suit is solid after the ♠A is played, but before you could enjoy those 3 tricks the defenders would have really enjoyed a bunch of ♥s.

Your only hope is to win 8 more tricks before you lose the lead. That means the ♦ finesse had better work. At trick 2 you lead your ♦Q, playing low from dummy if East doesn't cover. Repeat the finesse as necessary. When East has the ♦K you will make your contract, and when West has the ♦K you will go down. That's a 50% chance, just like most finesses. But remember, if you had tried to establish the ♠ suit instead of taking the finesse your chance of making 3NT would be 0%.

entry to dummy you must save it until the right time.

Win the first trick with the ♥K. Then play ♠A followed by ♠2. Continue playing ♠s until the ♠K is forced out. Win whatever they play next and play your other winners. You cannot be stopped from taking 7 tricks.

What would you try next? A ♠ finesse? Whether East took his ♠K right then or later you would go down. You could never reach dummy again.

Baker 100Deals 6

You are North and it is your bid. Decide what you would say, then on BID.

You have 7 points so you know your side does not have a game. You also have no reason to think there is any better contract than 1NT. So you pass.

South would play 1NT. To make life more convenient the hands will be rotated so that North becomes declarer.

ROTATE.

North plays 1NT. East leads the ♥Q.

Winners: ♠ 1 : ♥ 2 : ♦ 1 : ♣ 1 : Total = 5

You need two more winners. Even if the ♦s split 3-2 you can get only one more from that suit. So clearly you must use the ♠ suit. Since you have only one

4♥ by North

Baker 100Deals 7

You are North and it is your bid. Decide what you would say, then on BID.

You have a nice hand, but 20 points is not strong enough to open 2♣.

So you open 1♥. Partner raises to 2♥.

Partner's raise to 2♥ shows 6-10 points. You figure that should be enough for game but even if he has the full T you are not in slam range. So you bid the game.

North plays 4♥. East leads ♠A, then switches to ♥2.

Losers: ♠ 2 : ♥ 0 : ♦ 1 : ♣ 1 : Total = 4

It's a good thing you stopped at game - partner's hand is about as bad as it could be.

The PLAN turns out simple. You can't avoid either of the three black losers so you must eliminate the ♦ loser. You can ruff it in dummy. Just to be safe you pull one more round of trumps, then play ♦A, ♦K and ♦5, ruffing in dummy. You will eventually get to your hand (with a ♠ or a ♣ ruff) and pull the last trump.

Only a real beginner would have pulled all the trumps and not been able to ruff that ♦.

3 NT by North

Baker 100Deals 8

You are North and it is your bid. Decide what you would say, then on BID.

With 16 points as Responder you are not quite strong enough for a jump-shift to 2 ♦. That requires at least 17 points. A jump to 3NT fits the point range (16-18) but promises a stopper in all unbid suits. So instead you bid 1 ♦, knowing partner is forced to keep the bidding alive. He now replies 1NT. What is your next bid?

Until now you were thinking the hand might end up in a slam. Now, with partner's minimum rebid, you happily say 3NT which partner passes.

South would play 3NT.

North plays 3NT. East leads the ♠Q. West puts on the ♠K.

Winners: ♠ 1 : ♥ 2 : ♦ 5 : ♣ 0 : Total = 8

Let's say you hold up on the first ♠, hoping they switch suits. HA! They aren't about to switch suits and they drive out your ♠A at trick 2. That actually clears the situation up and makes this plan pretty simple to make.

You have taken 1 ♠, and you will surely make 5 ♦s. Despite the solidity of those ♣s you dare not try to win a ♣ trick, because the defenders will pounce on that first ♣ and then win a bunch of ♠ tricks.

So that makes it clear that you need 3 ♥ tricks, and there's only one way to get them. After taking your five ♦ tricks, play a ♥ to the ♥K, then a ♥ back, finessing the ♥J. Half of the time you will make this contract, the other half of the time they will bury you with ♠s.
