♦ 10 6 4

♣ 7 5

You are West. The bidding has been as shown.

Partner led the ♠ J, won by dummy's ♠ Q. The ♦ 5 is now played from dummy. What do you play?

When you have made your choice

Considering that North opened 1 NT, he must have the ♦ Q for this play to make sense.

So if you put on your ♦ A, North will have TWO ♦ winners established. If instead you play low, then North cannot get a second ♦ trick and will have to look elsewhere for his ninth trick. As you can see, he is not going to be able to find it.

♦ K 10 5 2

♣ 8 6 5 4

You are West. The bidding has been as shown.

Your lead of the ♣ J was won by South with the ♣ A. South then played the ♥ 2 and you must decide whether to split your honors.

When you have made your choice

South's bidding showed at least 5 ♥s, so assuming he holds both the ♥ A Q, it would be silly for him to finesse the ♥ 9 on the first trump play.

As it turns out, when you play low South calls for dummy's ♥ K, East's ♥ Q falls and you now have 2 trump tricks. If you had played the ♥ T you would have tossed away the setting trick.

You are West. The bidding has been as shown.

Partner led the ♣ K, and you played the ♣ 9 to encourage him. He continued with the ♣ Q, then a small card to your ♣ A. You then exit with the ♦ T, taken by dummy's ♦ K.

Declarer then calls for the ♥ J. Do you cover with your ♥ Q or not?

When you have made your choice

South has 5 ♥s and North must have at least 5. The reason you cover an Honor is that you hope to establish a lower card in either your hand or partner's hand. But your partner has one ♥ at the most so there is no hope of establishment.

Now that you have looked at the hands aren't you glad you didn't cover?

4 ♠ by South			
Lead: ♥ J			

You are West. The bidding has been as shown.

You lead the ♥ J, covered by dummy's ♥ Q and won by East's ♥ K. East wins the ♥ A at the second trick and continues with a small ♥ ruffed by South.

South then plays the ♠ 4 from his hand. Do you play low? or play the ♠ J to force dummy's ♠ A?

When you have made your choice

If South decides to finesse the ♠ T then you will still win the one ♠ trick which you are entitled to win.

However, with South holding the ♠ Q it would be very logical for him to go up with the ♠ A then lead back toward his

♠ Q, playing East for the ♠ K. If he plays this way you will get two tricks and defeat the contract.

♣ K 6

You are West. The bidding has been as shown.

Partner led the ♥ 9, taken by dummy's ♥T. The ♠ 4 is then played from dummy. Do you play low? or split your honors?

When you have made your choice

You should always make a point count check as soon as you see dummy. North's 2 NT promises 20 or 21 points, South has 14 and you have 3; total = 37 or 38. Therefore East must have either 2 or 3 points. He cannot have two Jacks because you can see all four of them. Likewise he cannot have a Queen because you can see three of them and his ♥ lead (top of nothing) denied that Queen.

It follows that East MUST have a King, and it must be ♣s or ♦s since he has denied any ♥ Honor.

Since East will definitely win his King, you need to take one trick yourself, and the best way to do that is to split your Honors to establish one ♠ winner.

North has no defense to this, but if you had played low he would have played the ♠T and made the slam.
