**Baker Signals 5**

You are West. The bidding has been as shown.

Partner led the ♣A, dummy played the ♣2 and it is your play.

When you have made your choice

If you signal with the ♣9 East will continue with the ♣K and another which you will have to ruff. You will give up your NATURAL trump trick by doing so. Worse, you will allow South's ♣J to be established as a winner that North can later discard a ♦ on.

Much better to play low. Partner will surely switch to a ♦, and North will probably finesse, though it doesn't matter whether he does or not. You will win the ♦K, return the ♣9 back to East's ♣K, and still have your trump trick for later.

### Baker Signals 6

You are South. The bidding has been as shown. You led the ♠ A, North plays the ♠ 9, East the ♠ 5. You assume North has signaled you to continue ♠ s, so you play the ♠ Q. On this trick North plays the ♠ 3 and East the ♠ 8. How will you continue?

When you have made your choice

You might just switch suits, but you have a better choice.

If you play your ♠ Q, North won't bother ruffing, East WILL ruff and dummy's ♠ J will be established as a winner.

The best procedure is to lead a low ♠. North will ruff and East will over-ruff but by playing this way you stop the establishment of West's ♠ J. As you can see, East would have been able to discard a loser on that ♠ J if you hadn't played this way.

want to win the second ♦ trick.

This defense holds South to one ♦ tricks, if you had let him win the second one he would have had 9 tricks.

**Baker Signals 7**

You are East. The bidding has been as shown. Partner led the ♥Q, you played low and South won the ♥A.

South now plays the ♦J on which West plays the ♦2. What do you play now, and what is your plan.

When you have made your choice

North hoped his ♦ suit would provide enough tricks to make the game. You can see that there is no entry to the North hand EXCEPT in ♦s, so you want to win your ♦A on the trick that South plays his last ♦. How can you tell which trick that is?

Only by watching what West plays. On the ♦J West played the ♦2, a low card signaling that he held an ODD number of ♦s. ODD must be either one or three so when he followed to the next ♦ you know he started with three. A little bit of counting tells you that South started with the doubleton Jack, so you

**Baker Signals 8**

You are North. The bidding has been as shown. You led the ♥4, South plays the ♥J, won by West with ♥A.

West plays the ♠J, you follow with ♠5, dummy ♠3 and South plays the ♠2. West continues with the ♠T and it is your play.

When you have made your choice

South's ♠2 tells you he had an ODD number of ♠s, obviously 3. Since West also must have 3, you must take your ♠A on the third round, depriving dummy of the extra ♠ trick.

West may now turn to the ♦ suit, but your side can win the first ♦ and drive out West's ♥K. You will win 2 ♥s, 2 ♦s and the ♠A, down 1
