6NT by South

a ♠ dummy's ♠ 5 will win the last trick. This is soooo much fun.

Baker Squeeze 11

South is to play 6NT. West leads the ♥ J. East wins the ♥ A and returns the ♥ 2.

No matter how the ♠ s split only one defender will hold the Guard because only one defender can have as many as 4. IF (it's a big IF) that same defender holds the ♣ K then you can squeeze him.

Can you see how the squeeze is going to work?

The solution is the Vienna Coup. Play a ♣ to the ♣ A at trick 3.

Then start running the ♦ suit.

So far neither defender is hurting, but that is about to change.

You play your ♦ 3 and discard dummy's ♣ T.

East is squeezed. He can't throw his ♣ K without letting your ♣ Q become a winner. But if he discards

6 ♥ by North

Baker Squeeze 12

South is to play 6 ♥. West leads the ♠ Q. East wins the ♠ A and plays the ♦ K.

In this hand dummy's fourth ♣ is an obvious Threat, so you should ask yourself if you can find another Threat for when ♣s don't split 3-3. Another thing you have probably noticed is that although 3-3 splits happen about 40% of the time in real life, they NEVER happen in these pages!

Play 5 ♥ winners and the ♠ K.

Play your ♥ 2 and dump dummy's ♦ 6.

East has no answer.

guard against your ♠7. So he discards the ♣6, hoping partner can stop that suit.

Your ♠7 is now worthless so you throw it.

West has no problem, (yet), he discards the ♥T.

Play dummy's ♠5 to your ♠K.

West MUST keep his ♥Q so he releases his ♣5.

And you win the last three tricks with ♣K, ♣A, ♣8.

This is called a Double Squeeze.

Baker Squeeze 13

South is to play 7NT. West leads the ♥K.

Then, your second thought should be that dummy's ♥J is a Threat against West's ♥Q, so if it is West who holds 4 ♠s you will be able to squeeze him.

Since the contract is 7NT you take the first trick with the ♥A.

You continue with the ♦Q and ♦K, East discarding a ♥ and a ♣.

To find out for sure you play ♠A, then ♠Q. Sure enough West discards a ♥ on the second round.

But now a completely new possibility shows up. Say to yourself, over and over, "West must guard ♥s, and East must guard ♠s. Nobody can guard ♣s."

You start playing dummy's ♦ winners.

When you play the ♦5 East must keep both ♠s to

7NT by South

Baker Squeeze 14

South is to play 7NT. West leads the ♠Q.

So take the ♠K and play ♣A K Q.

West discards a ♠ on the third ♣.

Before tackling ♦s, see what you can discover about ♠s.

Play the ♠A. East discards a ♥.

West guards the ♠s. Nobody can guard the ♥s.

Play 4 rounds of ♦s.

You discarded a small ♠. West discarded a ♠ on the third ♦ and a ♥ on the fourth.

Play dummy's ♦4. East cannot throw the ♣J or he will set up dummy's ♣8, so he discards a ♥.

You discard the ♠7.

Now West is squeezed. He cannot discard the ♠J or he will set up dummy's ♠9, so he discards a ♥.

You win the last three ♥ tricks with another Double Squeeze.

toss dummy's ♣9.

Baker Squeeze 15

South is to play 6 ♥. West leads the ♠A, then ♠K.

Even looking at all four hands here it is still very difficult to come up with a plan.

Here's a hint: If West holds 3 ♣s, (and you see that he does), can you squeeze him in ♣s and ♠s?

The big problem with trying to squeeze West in the black suits right now is that East actually holds a ♠ guard. But you can fix that.

Play dummy's ♥Q and ♥T, then ruff a ♠, then pull the last trump.

Then lead dummy's ♣7 to your ♣K.

Only West can guard dummy's ♠T, and only West can guard dummy's ♣9.

So you play your ♥A and West must give up one of his guards. If he holds on to the ♠J then you toss dummy's useless ♠T. If he throws the ♠J then you
