7NT by South

guard against your ♠7. So he discards the ♣6, hoping partner can stop that suit.

Your ♠7 is now worthless so you throw it.

East has no problem, (yet), he discards the ♥T.

Play dummy's ♠5 to your ♠K.

East MUST keep his ♥Q so he releases his ♣5.

And you win the last three tricks with ♣K, ♣A, ♣8.

This is called a Double Squeeze.

**Baker Squeeze 13**

North is to play 7NT. East leads the ♥K.

Then, your second thought should be that dummy's ♥J is a Threat against East's ♥Q, so if it is East who holds 4 ♠s you will be able to squeeze him.

Since the contract is 7NT you take the first trick with the ♥A.

You continue with the ♦Q and ♦K, West discarding a ♥ and a ♣.

To find out for sure you play ♠A, then ♠Q. Sure enough East discards a ♥ on the second round.

But now a completely new possibility shows up. Say to yourself, over and over, "East must guard ♥s, and West must guard ♠s. Nobody can guard ♣s."

You start playing dummy's ♦ winners.

When you play the ♦5 West must keep both ♠s to

7NT by East

You discard the ♠ 7.

Now South is squeezed. He cannot discard the ♠ J or he will set up dummy's ♠ 9, so he discards a ♥.

You win the last three ♥ tricks with another Double Squeeze.

**Baker Squeeze 14**

East is to play 7NT. South leads the ♠ Q.

So take the ♠ K and play ♣ A K Q.

South discards a ♠ on the third ♣.

Before tackling ♦ s, see what you can discover about ♠ s.

Play the ♠ A. North discards a ♥.

South guards the ♠ s. Nobody can guard the ♥ s.

Play 4 rounds of ♦ s.

You discarded a small ♠. South discarded a ♠ on the third ♦ and a ♥ on the fourth.

Play dummy's ♦ 4. North cannot throw the ♣ J or he will set up dummy's ♣ 8, so he discards a ♥.

toss dummy's ♣ 9.

**Baker Squeeze 15**

South is to play 6 ♥. West leads the ♠ A, then ♠ K.

Even looking at all four hands here it is still very difficult to come up with a plan.

Here's a hint: If West holds 3 ♣s, (and you see that he does), can you squeeze him in ♣s and ♠s?

The big problem with trying to squeeze West in the black suits right now is that East actually holds a ♠ guard. But you can fix that.

Play dummy's ♥ Q and ♥ T, then ruff a ♠, then pull the last trump.

Then lead dummy's ♣ 7 to your ♣ K.

Only West can guard dummy's ♠ T, and only West can guard dummy's ♣ 9.

So you play your ♥ A and West must give up one of his guards. If he holds on to the ♠ J then you toss dummy's useless ♠ T. If he throws the ♠ J then you

3 NT by East

North will almost surely cash his ♠2.

You and dummy both discard a ♣ and South also must discard a ♣.

It doesn't matter what North plays next, let's say it is a ♣.

South is truly squeezed. If he discards a ♥, dummy's ♥5 will become a winner. but if he discards a ♦ then you will get a third ♦ trick and the contract.

Since it was North who started the squeeze by cashing his last ♠, this is called a Suicide Squeeze. BUT, what if North had not cashed that ♠?

Suppose North is a really expert defender and avoids the Suicide Squeeze by just refusing to cash his winning ♠. It doesn't matter what else he plays instead, so let us assume it is a ♣.

You win in your hand and establish a ♦ winner by playing ♦A, ♦K, and a small ♦. South wins but cannot reach his partner's hand for that good ♠.

So you establish a ♦ winner and make your contract.

**Baker Squeeze 16**

West is to play 3NT. North leads the ♠3. South plays the ♠5.

You have 8 winners, and if South holds 4+ ♥s AND 3+ ♦s then only he can guard the two suits.

But how can you squeeze him?

But maybe you can make his partner do the job for you.

At trick 2 you play a ♠.

And he will no doubt continue with the ♠A and ♠9.

You discard 2 ♦s from dummy and a ♣ from your hand.

South cannot spare either a ♥ or a ♦ so he also throws a ♣.

7 ♣ by North

Baker Squeeze 17  
 North is to play 7♣. East leads the ♠K.

So you take the ♠A, pull three rounds of trumps and play ♦K.

But when you lead to the ♦A East discards a small ♠.

Think squeeze instead. Ruff a ♦. This turns the ♦J into a Threat card against West's ♦Q.

But, the ♠J is already a Threat card against East's ♠Q.

East can afford to discard the ♠9 and the ♥5.

West can spare his two ♠s.

East cannot throw the ♠Q, so he gives up the ♥8. Dummy's ♠J is of no further value so you dump it.

West cannot throw the ♦Q, so he gives up the ♥2.

And you take the last three tricks with the ♥ suit. There were only two defenders; one of them had to guard ♠s and the other had to guard ♦s. There was nobody left to guard ♥s.

opposite one.

Yet another slam, courtesy of the Squeeze Play!

Baker Squeeze 18  
East is to play 6 ♥. South leads the ♠ A.

So you ruff the ♠, pull trumps in three rounds, then play ♣ A K and get the bad news when South discards a ♠.

And since South had 3 ♥s and a very long ♠ suit it is pretty likely that North guards the ♦s also. You will try to squeeze North in ♣s and ♦s, but first you must lose a trick to rectify the count.

So you play a low ♦ from each hand.

He will then play the ♠ K, which you must ruff in your hand.

Play dummy's ♥ J.

North gets to choose his own fate - discarding a protector in one of the two suits. Of course, whichever suit he discards you will throw the
