4 ♠ by North

In either case you will no longer have a ♣ loser.

Baker Eliminations 5

North is to play 4 ♠. East leads the ♦ J, covered by the ♦ Q and ♦ A. West returns a ♦ to the ♦ K.

You still have two losers in the ♥ suit, so the question is which way you plan to finesse the ♣s. And of course the answer is that you don't plan to finesse them at all!

Pull trumps with the ♠ A, then ♠ K. Next ruff dummy's last ♦.

Now exit with a ♥. The defenders win this and take another ♥ trick, leaving this position.

They must now break the ♣ suit for you or give you a ruff-sluff. Of course you would ruff in dummy and discard a ♣ from the 3-card holding in your hand.

If East is the one who has to play a ♣ you need to insert the ♣ T or ♣ J from dummy.

♠ Q.

East has just taken the defender's first trick. First and only. Because if he now plays a red card you will ruff in one hand and discard a losing ♣ from the other. And if he plays a ♣ you will no longer have a ♣ loser.

Here it took two ruffs, one in each hand.

Baker Eliminations 6

North decides a limit raise is better than just jumping to game. South has heard enough and bids the slam.

South is to play 6 ♠. West leads the ♦ Q.

So you win the ♦ K and play a ♠ to your ♠ K. When West discards a ♦ your second thought is probably that you MUST guess the ♣ Q just to make twelve tricks.

Hopefully your third thought is that if you use an elimination play you won't have to guess.

Play your ♠ A, leaving East with the master ♠ Q. Then eliminate ♦ s by playing ♦ A and ruffing a ♦ in dummy.

Now eliminate ♥ s by playing ♥ A, ♥ K, and ruffing a ♥.

You are ready for the throw-in. Play a ♠ to East's

overtrick.

If you try the two finesses instead you MIGHT make an overtrick, but you also might go down 1.

Decide for yourself!

Baker Eliminations 7

South first transfers you to ♥s, then gives you a choice of which game to play. Knowing you have an 9-card trump fit, you choose 4♥.

North is to play 4♥. The defenders start with ♠K, ♠Q, ♠A.

Ruff the ♠A with dummy's ♥T and pull trumps (three rounds).

Eliminate ♦s by playing ♦K, ♦A, ♦J. If you are REALLY lucky the ♦Q will fall doubleton, but more than likely a defender will win the third ♦. He won't be happy about it, though.

Whichever defender wins the ♦Q is end-played. If he plays a ♦ or a ♠ you will ruff in one hand and discard a ♣ loser from the other. But if he leads a ♣ instead you no longer have a ♣ loser.

However, it also guarantees that you will not make an

dummy's ♣Q. If East can win with the ♣K he will once again be end-played, forced to either play a ♣ back to dummy's ♣A 9, or give you a ruff-sluff.

As you see, A Q 9 actually works just as well.

Baker Eliminations 8

You naturally respond 2 ♦ to North's strong 2 ♣ opener. Before you know it you are playing a slam - with your mighty 2-point hand ♠outh plays 6 ♦. West leads the ♠Q.

Win the ♠A, play the ♦4 to the ♦T, and ruff a ♠ with the ♦Q. Both opponents followed to the trump.

Play the ♦7 to the ♦J and ruff the last ♠ with the ♦K.

Having eliminated the ♦s and ♠s, now remove the ♥s. Play ♥A, ♥K, and ruff a ♥.

At last it is time to play ♣s. Lead a ♣ from your hand and play dummy's ♣9 if West plays low. East will win the trick but will be end-played, forced to either play a ♣ back to dummy's ♣A Q, or give you a ruff-sluff.

If West puts on either the ♣T or ♣J you play
