South

2 NT

With 21 points and 4-3-3-3 distribution, SOUTH opens 2 NT.

NORTH has just 3 points; he knows that SOUTH cannot have more than 21 so the partnership

total cannot be more than 24. So he just passes 2 NT.

South

1 NT

Pass

This is an easy one to bid.

SOUTH has a balanced 16 points so he opens 1 NT.

NORTH has a balanced 12 points so she responds 3 NT.

BUT - just look at how this would play. You might only be able to take 8 tricks.

Sometimes correct bidding gets you to unmakeable contracts. But it's only a game.

Notrump bidding really is easy, you just add your points to partner's points and then

bid according to that answer.

Here NORTH has 14 points. So when SOUTH opens 2 NT, showing 20 or 21 points NORTH knows the

total will come to 34 or 35 so he bids 6 NT.

NORTH cannot open with only 8 points.

Furthermore, when SOUTH opens 1 NT
NORTH knows that the partnership has a
25 points at most so

he passes again.
