If you thought you couldn't bid 1 ♠ because it would have been a Reverse just think again.

A Reverse is when you bid a higher-ranking second suit at the 2-level. This is just normal bidding of suits up the line.

Partner now takes control and bids the ♠ game.

Don't bid 2 ♥. That would be a Reverse, showing at least 17 points. A 2 ♥ bid would also show longer ♣s than ♥s. Don't bid 2 ♠. That would be showing 4-card support.

So with your minimum hand you bid 1 NT which partner raises to 3 NT.

1 ♥

2 NT

At your first turn you bid your ♥ suit, up-the-line. Decide what you would say next, then on BID above.

You only have 7 points, but partner Reversed so you cannot pass. You need to make a bid to show your minimum, and you cannot support either of partner's suits, nor can you rebid your ♥s.

However, you also cannot bid your ♠ suit. That would be fourth-suit-forcing, and would show a game forcing hand of 9 or more points.

Instead you bid 2 NT. Partner has a bare 17 so he passes.

With 18 points you have enough to make a Reverse. So you bid 2♦. Partner now says 3♠. What do you bid?

Partner's jump bid shows a 6-card suit and enough points to insist on game. You don't have ♠ support but you do have good ♥ stoppers so you bid 3 NT.

With his Reverse, partner has shown at least 17 points and at least 4 ♥s.

You could fall back on the guidelines and say that with 10 points you need to make a positive bid at this time, but it is simpler to just rely on "SHE WHO KNOWS, GOES."

Since you know of an 8-card ♥ fit and at least 27 points you bid 4 ♥.

You are the dealer.

It may be tempting to open 1 ♥, planning on Reversing in ♠ at your second turn to show your big hand.

Don't. A Reverse should always show an unbalanced hand with the first suit longer. So you open 1 ♠ and partner replies 2 ♠.

What do you bid?

If you had opened 1 ♥ partner would have replied 1 NT. Then when you Reversed with 2 ♠ he would have assumed you had a 4-card ♠ suit and would probably have put you back in ♥s, your known 5-card suit.

Things would have gotten confusing, to say the least.

You would really love to pass. You have a terrible hand and you like the ♦s better than the ♣s.

But you are forced to bid. And since partner has 5 ♣s and only 4 ♦s, you should take him back to his first suit.

Mercifully he passes.

With 17 points you have a perfect hand for a Reverse. So you bid 2 ♦. Partner then says 3 ♣. What do you say?

Partner's return to your ♣ suit shows he has fewer than 9 points. Although it is possible to devise a hand for him where your side could make 3 NT, the risk is too great.

So you pass. It's a good thing, too.
