Lead: ♠ J

You are West. The bidding has been as shown.

Partner led the ♠ J, won by dummy's ♠ Q. The ♦ 5 is now played from dummy. What do you play?

When you have made your choice

Considering that North opened 1 NT, he must have the ♦ Q for this play to make sense.

So if you put on your ♦ A, North will have TWO ♦ winners established. If instead you play low, then North cannot get a second ♦ trick and will have to look elsewhere for his ninth trick. As you can see, he is not going to be able to find it.

You are South. The bidding has been as shown.

Your lead of the ♣ J was won by East with the ♣ A. East then played the ♥ 2 and you must decide whether to split your honors.

When you have made your choice

East's bidding showed at least 5 ♥s, so assuming he holds both the ♥ A Q, it would be silly for him to finesse the ♥ 9 on the first trump play.

As it turns out, when you play low East calls for dummy's ♥ K, North's ♥ Q falls and you now have 2 trump tricks. If you had played the ♥ T you would have tossed away the setting trick.

Lead: ♣ K

You are East. The bidding has been as shown.

Partner led the ♣ K, and you played the ♣ 9 to encourage him. He continued with the ♣ Q, then a small card to your ♣ A. You then exit with the ♦ T, taken by dummy's ♦ K.

Declarer then calls for the ♥ J. Do you cover with your ♥ Q or not?

When you have made your choice

North has 5 ♥s and South must have at least 5. The reason you cover an Honor is that you hope to establish a lower card in either your hand or partner's hand. But your partner has one ♥ at the most so there is no hope of establishment.

Now that you have looked at the hands aren't you glad you didn't cover?

You are North. The bidding has been as shown.

You lead the ♥ J, covered by dummy's ♥ Q and won by South's ♥ K. South wins the ♥ A at the second trick and continues with a small ♥ ruffed by West.

West then plays the ♠ 4 from his hand. Do you play low? or play the ♠ J to force dummy's ♠ A?

When you have made your choice

If West decides to finesse the ♠ T then you will still win the one ♠ trick which you are entitled to win.

However, with West holding the ♠ Q it would be very logical for him to go up with the ♠ A then lead back toward his ♠ Q, playing South for the ♠ K. If he plays this way you will get two tricks and defeat the contract.

6 NT by North			
Lead: ♥ 9			

You are West. The bidding has been as shown.

Partner led the ♥ 9, taken by dummy's ♥T. The ♠ 4 is then played from dummy. Do you play low? or split your honors?

When you have made your choice

You should always make a point count check as soon as you see dummy. North's 2 NT promises 20 or 21 points, South has 14 and you have 3; total = 37 or 38. Therefore East must have either 2 or 3 points. He cannot have two Jacks because you can see all four of them. Likewise he cannot have a Queen because you can see three of them and his ♥ lead (top of nothing) denied that Queen.

It follows that East MUST have a King, and it must be ♣s or ♦s since he has denied any ♥ Honor.

Since East will definitely win his King, you need to take one trick yourself, and the best way to do that is to split your Honors to establish one ♠ winner.

North has no defense to this, but if you had played low he would have played the ♠T and made the slam.
