NORTH's 2

â™¥

raise shows 6-10 points and at least three trumps.

SOUTH, with 19+ points, decides that game is almost a certainty and bids 4

â™¥

.

3 NT by South			

SOUTH has an ideal 1 NT opening -

15 points and balanced distribution.

With 12 points, NORTH knows the partnership total is between 27 and 29, enough for game

but not enough to think about slam. Since NORTH has no 4-card Major suit she bids 3 NT.

With his minimum response hand SOUTH passes.

With 6 points, SOUTH must respond to NORTH's 1<sup>TM</sup> opening bid.

While it is often correct to respond by bidding suits "up-the-line", SOUTH should

skip over the weak

1<sup>TM</sup>

suit in favor of showing the 4-card

Major 1<sup>TM</sup> suit.

NORTH knows that SOUTH may only have four 1<sup>TM</sup>'s, but with four of her own she can support the

suit. Since she has a minimum opening

With 17 points SOUTH is not strong enough to insist on game after NORTH's raise,

but is strong enough to invite with a 3  
a™Y  
bid.

NORTH, however, doesn't have anything extra, so declines to go further.

3 NT by South			

This is a classic Notrump bidding sequence.

SOUTH opens 1 NT with 17 points and balanced distribution.

NORTH, with 9 points is not strong enough to bid game, but invites with 2 NT.

SOUTH has a maximum, so she accepts the invitation.

With two 4-card Majors NORTH should respond "up-the-line", bidding

$\hat{a}^{\text{TM}}$

s first.

Then, after SOUTH bids  $1\hat{a}^{\text{TM}}$ , NORTH has enough points to jump all the way to  $4\hat{a}^{\text{TM}}$ .
