4 ♠ by North			

NORTH's 1♦ bid is definitely forcing, but it is not FSF. In this one instance, all

bids at the one level, the 4♦ bid shows a real suit.

So SOUTH shows the 4-card support and NORTH bids game.

EAST could make a Help Suit Game Try in either ♠s or ♣s.

But she doesn't need the ♠ help as much as she does in ♣s, so she chooses ♣s.

WEST doesn't have a strong hand but has excellent help in ♦s

so he bids the game.

Could SOUTH bid 2

â™¥

, (FSF), even though she actually has the suit?

Perhaps, but there is no reason to do so.
 NORTH does not have four

â™¥

or he would have mentioned them before bidding â™ s.

SOUTH should ignore the

â™¥

suit and bid 3 NT.

five \hat{a}^{TM} s and bids the \hat{a}^{TM} game.

WEST cannot bid 2

$\hat{a}^{\text{TM}}\hat{Y}$

at his second turn; that would be

Fourth Suit Forcing and wouldn't show the

$\hat{a}^{\text{TM}}\hat{Y}$

suit at all.

With a game-forcing two-suiter he jumps to 3

$\hat{a}^{\text{TM}}\hat{Y}$

instead.

EAST recognizes that WEST must hold

Pass			
2 ♦ by North			

SOUTH bids $2\hat{\alpha}^{\text{TM}}\clubsuit$ as New Minor Forcing, hoping NORTH has three

$\hat{\alpha}^{\text{TM}}\Psi$

s.

NORTH does not have three

$\hat{\alpha}^{\text{TM}}\Psi$

s and he has no other bid to make that

will describe his hand any better. He cannot bid Notrump again without a $\hat{\alpha}^{\text{TM}}\clubsuit$ stopper.

So NORTH rebids the 5-card

$\hat{\alpha}^{\text{TM}}\downarrow$

suit.

SOUTH has nowhere to go, so passes.
