SOUTH bids 3 NT to show a good hand with five  $\hat{a}^{\text{TM}}$ s.

NORTH shows his

$\hat{a}^{\text{TM}}!$

control, and SOUTH then shows her

$\hat{a}^{\text{TM}}Y$

control.

A final check with Blackwood shows two Aces missing. Too bad.

SOUTH shows his 6-card  $\hat{a}^{\text{TM}}$  suit by bidding 3 $\hat{a}^{\text{TM}}$ .

NORTH shows her  $\hat{a}^{\text{TM}}\mathbb{E}$  control and SOUTH shows his

$\hat{a}^{\text{TM}}\mathbb{Y}$

control,

but it seems neither has a control in

$\hat{a}^{\text{TM}}\mathbb{I}$

s.

So they stop in game.

SOUTH might just use Jacoby 2 NT since he has great

â™¥

support and

more than 13 points. But, he has so much more than 13 points that he should inform partner by

making a jump-shift. He plans to return to

â™¥

s later.

NORTH has different plans. Knowing partner has five â™'s and 17 or more points she pushes

straight to the â™' slam.

It didn't matter, slam is cold in either Major.

NORTH bids 4♦, showing

â™¥

support, 13+ points and a singleton  
or void in â™£s.

SOUTH first shows her

â™!

A, then, when NORTH signs off,  
makes one more try by showing her  
â™ A.NORTH finally gets inspired and bids the  
slam.

NORTH has a very minimum 2 NT bid, but when SOUTH shows  $\hat{a}^{\text{TM}}\hat{Y}$  shortness she can Control-bid

her

$\hat{a}^{\text{TM}}\hat{Y}$

A without showing extra values.

SOUTH's hand became huge when he heard about NORTH's

$\hat{a}^{\text{TM}}\hat{Y}$

A.

When Blackwood shows they hold three Aces he bids what he expects to be a comfortable slam.
