West *North* *East* *South*
Pass 2 NT Pass Pass
Pass
2 NT by North

With 21 points and 4-3-3-3 distribution,
NORTH opens 2 NT.

SOUTH has just 3 points; he knows that
NORTH cannot have more than 21 so the
partnership

total cannot be more than 24. So he just
passes 2 NT.

♠ Q 10 9 8 7	♦ 10 7	♥ Q 10 8	♣ J 10 8
♠ A 4 2	♦ A 4 2	♥ A 6 4 2	♣ A 4 2

This is an easy one to bid.

SOUTH has a balanced 16 points so he opens 1 NT.

NORTH has a balanced 12 points so she responds 3 NT.

BUT - just look at how this would play.
You might only be able to take 8 tricks.

Sometimes correct bidding gets you to unmakeable contracts. But it's only a game.

6 NT by North

Notrump bidding really is easy, you just add your points to partner's points and then

bid according to that answer.

Here SOUTH has 14 points. So when NORTH opens 2 NT, showing 20 or 21 points SOUTH knows the

total will come to 34 or 35 so he bids 6 NT.

Pass	Pass	Pass	
1 NT by South			

NORTH cannot open with only 8 points.

Furthermore, when SOUTH opens 1 NT NORTH knows that the partnership has a 25 points at most so

he passes again.
