Baker Signals 1  
You are West. The bidding has been as shown.  
You led the ♠K, East played the ♠7 and South  
the ♠5.

What do you play to the second trick?

When you have made your choice click NEXT.  
[NEXT]

You can see the ♠6, ♠5, ♠4, ♠3 and ♠2. So  
the ♠7 is East's lowest ♠, he is doing his best  
to discourage you from leading the suit again.

South held up with ♠ A J x, hoping you would  
play the suit again and give him two tricks.

If you play the ♦T East will win the ♦A and  
return a ♠, allowing you to drive out South's  
♠A while you still have the ♣A for an entry.

There IS another possibility if South is a better than average Declarer. East just might hold ♠ 9 7, giving South ♠ A J 8 5. South played the ♠ 8 as a falsecard to tempt you into playing the suit again. This isn't too likely, but if it happens just congratulate South for the fine play.

### Baker Signals 2

You are West. The bidding has been as shown. You led the ♠ K, East played the ♠ 7 and South the ♠ 8.

What do you play to the second trick?

When you have made your choice click NEXT.  
[NEXT]

You cannot see the ♠ 5. The most likely reason is that East has it, and his ♠ 7 is an encouraging signal. The only reason he would encourage you is if he held either the ♠ A or ♠ J.

Together, you two continue to play ♠ s to drive out South's ♠ A. When you get the lead with your ♣ A you will cash your ♠ winners and East will still have the ♦ A for some icing on the cake.

You are East. The bidding has been as shown. Partner led the ♣A, dummy played the ♣2 and it is your play.

When you have made your choice click NEXT.  
[NEXT]

If you signal with the ♣9 West will continue with the ♣K and another which you will have to ruff. You will give up your NATURAL trump trick by doing so. Worse, you will allow North's ♣J to be established as a winner that South can later discard a ♦ on.

Much better to play low. Partner will surely switch to a ♦, and South will probably finesse, though it doesn't matter whether he does or not. You will win the ♦K, return the ♣9 back to West's ♣K, and still have your trump trick for later.

one more ♥. So you play your ♥K. He ruffs in dummy of course, but then has no way to get rid of that ♣ loser when the finesse fails.

If you had not been paying attention to West's signal you might have decided to risk a ♣ lead - with a disastrous result.

Baker Signals 19

You are East. The bidding has been as shown. The 2♥ bid was a transfer. The 5NT bid meant to choose either 6♠ or 6NT. South liked the suit. Partner led the ♠5, won by South's ♠Q. South pulls one more trump with his ♠A, then wins three high ♦s. Next comes dummy's ♥A on which he plays the ♥3 and West plays the ♥9. Then he leads dummy's ♥6 which you win with the ♥Q. On this trick South drops the ♥J and West the ♥2. It is your play.

If you believe South is now out of ♥s then you shoud not play your ♥K because it would give him a ruff-sluff.

But you shouldn't believe South when your partner has sent you a clear signal that he holds an EVEN number of ♥s. In this case an even number must be 4 which means that South has

### Baker Signals 20

You are West. The bidding has been as shown. You led the ♣A, East played the ♣2 and South the ♣9. What should you play to the second trick?

When you have made your choice click NEXT.  
[NEXT]

On first thought East's ♣2 seems to be a discouraging signal. Think again.

After the first trick you know the location of every ♣ except the ♣Q and ♣J. If East started with ♣ J 2 he would have signaled with the ♣J. If East started with ♣ Q J 2 he would have signaled with the ♣Q. Since he did neither he started either with singleton ♣ 2 or with ♣ Q 2. In either case you should play a low ♣ now which he will either win with his ♣Q or he will ruff.

It turns out that he wins with the ♣Q, then leads a ♠ back to your ♠ A Q.
