You are West. The bidding has been as shown.

Partner led the ♥T, won by dummy's ♥A. At trick 2 North calls for dummy's ♣3. Which card do you play?

When you have made your choice

You would not have been expecting North to play a small ♣ from dummy's holding. The only way it makes sense is if North holds the ♣Q.

If you play your ♣K you will win the trick, but in so doing you will set up 3 ♣ tricks for North, which is all he needs to make the slam.

Play low instead and North will win his ♣Q. But now your ♣K sits behind dummy's ♣J 4 so he can get only one more trick in the suit, the ♣A.

Lead: ♠ J

You are South. The bidding has been as shown.

You lead the ♠ J, the ♠ K is played from dummy and holds the trick. Next come dummy's ♥ K, then another trump to East's ♥ A.

At trick 4 East plays the ♣ 2 from his hand and you must decide what to play.

When you have made your choice

East has 2 small ♣s and faces a choice of dummy plays in the suit. He must decide whether to play you for the ♣ A or the ♣ Q. If you play your ♣ A you make the decision very easy for him.

When you correctly play your small ♣ life becomes harder for East. Sometimes he will guess correctly and play dummy's ♣ K, but other times he will play dummy's ♣ J, hoping you have the ♣ Q.

 3 NT by South
 Lead: ♠ 6

You are East. The bidding has been as shown.

Partner led the ♠ 6. You won the ♠ A and returned the ♠ 9, won by South's ♠ Q.

South next played to dummy's ♣ A and led the ♦ 2. What do you play?

When you have made your choice

Count the points. South's 15-17 plus North's 11 plus your T comes to 36-38. So West has room for an Ace or a King, but no more.

West's second ♠ play was the 2, so it looks like he started with 5 ♠s. And the fall of South's ♠s looks like he may have 1 ♠ left, very likely the ♠ K.

All this means that you should take your ♦ A now and return your last ♠ to establish West's suit. Now West's ♦ K will be an entry to the ♠s

If you play low, West will have to take the ♦ K now, and although he can play a ♠ to establish the suit, he will not have an entry to be able to cash them.

must have had 5 ♠s and 4 ♥s.

Suppose you play low on this ♥ (as West hopes you will). Dummy's ♥ K will take the trick, and when another ♥ is played you will have to win it with your now bare ♥ A. You will then have to play a ♦ or a ♣, giving West a ruff and sluff.

But if you take your ♥ A now, then exit with your ♥ 2, West can win the ♥ K but will still have to lose a ♥ to South.

You are North. The bidding has been as shown.

You lead the ♣ Q, South plays low and West wins the ♣ A.

West pulls trumps in 2 rounds. He then takes the ♦ K, ♦ Q, ♦ A, discarding a ♥ on the last one. Next he plays dummy's last ♣ to his ♣ K.

Having done all this, West now plays a low ♥ from his hand. What do you play?

When you have made your choice

If you followed what West was doing you will realize that he has eliminated both the ♦s and ♣s from both his hand and dummy. If it isn't clear that he is now out of ♣s, just remember the bidding - he
