that North started with the doubleton Jack, so you want to win the second ♦ trick.

This defense holds North to one ♦ tricks, if you had let him win the second one he would have had 9 tricks.

Baker Signals 7

You are West. The bidding has been as shown.

Partner led the ♥Q, you played low and North won the ♥A.

North now plays the ♦J on which East plays the ♦2. What do you play now, and what is your plan.

When you have made your choice

South hoped his ♦ suit would provide enough tricks to make the game. You can see that there is no entry to the South hand EXCEPT in ♦s, so you want to win your ♦A on the trick that North plays his last ♦. How can you tell which trick that is?

Only by watching what East plays. On the ♦J East played the ♦2, a low card signaling that he held an ODD number of ♦s. ODD must be either one or three so when he followed to the next ♦ you know he started with three. A little bit of counting tells you

Baker Signals 8

You are South. The bidding has been as shown. You led the ♥4, North plays the ♥J, won by East with ♥A.

East plays the ♠J, you follow with ♠5, dummy ♠3 and North plays the ♠2. East continues with the ♠T and it is your play.

When you have made your choice

North's ♠2 tells you he had an ODD number of ♠s, obviously 3. Since East also must have 3, you must take your ♠A on the third round, depriving dummy of the extra ♠ trick.

East may now turn to the ♦ suit, but your side can win the first ♦ and drive out East's ♥K. You will win 2 ♥s, 2 ♦s and the ♠A, down 1

plays his ♣2 and you win 4 tricks.

Baker Signals 9

You are East. The bidding has been as shown. Partner led the ♥5, dummy played the ♥T and it is your play.

When you have made your choice

You really want West to lead a ♣ if he gets into the lead. If you discard the ♣9 West will surely get the message and will lead a ♣. BUT - you will only win 3 ♣ tricks. The ♣9 would have been the fourth winner.

So instead, play a low card in one of the other suits, say the ♦3.

South is one trick short and he sees he can easily get that trick in ♥s. So he plays a second ♥ from dummy and you now discard the ♠2. West takes the ♥A and he can see that you don't want him to lead a ♠ or a ♦. He deduces that you might like a ♣ so he

Baker Signals 10

You are North. The bidding has been as shown. You led the ♥4, South takes the ♥A and returns the ♥3. You ruff and then play what???

When you have made your choice

Partner played the ♥3, a low card, for you to ruff. That means his re-entry, if he has one, is in the lower-ranking suit.

Partner takes the ♣A and gives you a second ♥ ruff.

Baker Signals 11

You are West. The bidding has been as shown.

Partner led the ♦ A, dummy played the ♦ 3 and it is your play.

When you have made your choice

You know partner also has the ♦ K, and normally you would give an encouraging signal when you hold the Queen. But with this hand you want partner to switch to ♣s as soon as possible. So you play a low ♦.

East looks at your signal, then looks at dummy, then looks at your signal. He knows you want a switch and it looks like a switch to ♣s might work the best. North plays a low ♣ from dummy, you win the ♣ J. Next you play a low ♦, taken by East with his ♦ K. East leads a ♣. Dummy plays the ♣ K, you win that, cash another ♣, then cash your ♦ Q. That first signal led to your side winning the first 6 tricks. Wow.

4 ♠ by East

Baker Signals 12

You are South. The bidding has been as shown. You led the ♥A, North puts on the ♥Q. It's your play.

When you have made your choice

North's ♥Q is either a singleton, (practically impossible), or a signal showing that he also holds the ♥J. In either case you can reach the North hand on the second trick by playing a low ♥. Since you don't particularly want to start playing ♦s from your side, you go ahead and play a small ♥, won by North with the ♥J.

North next plays the ♦Q and however East tries it your side will take the next two ♦ tricks and set the contract.
