♠ K Q 3
♥ 9 6 4
♦ A Q 7 3
♣ 6 4 2

North is to play 3 NT. East leads the ♥ Q.

Winners: ♠=0 ♥=2 ♦=4 ♣=1 Total = 7

Needing two more winners you will have to make both the ♠ K and ♠ Q. This will only be possible if East holds the ♠ A. Win the first trick (if you don't East might switch to ♣s) and play a small ♠ toward dummy's ♠ Q. It holds the trick.

You should take your four ♦ winners now, being sure to end up in your hand. Then play another small ♠ toward dummy's ♠ K. This also wins.

You have now won 7 tricks so don't mess around now. Take your two Aces and let them have the last four tricks.

A Simple Finesse has only a 50% success rate. That's why we only take finesses as a last resort.

South is to play 3 NT. West leads the ♦ 3.

Winners: ♠=1 ♥=5 ♦=1 ♣=1 Total = 8

You need just one more winner. Since West probably has 4 ♦s you will not be able to establish a trick in that suit, so your only hope is the ♠Q. You win the first ♦ so they don't get a chance to switch to ♣s, a suit you are worse off in. Then take your 5 ♥ tricks, ending in dummy.

You can't put it off any longer so play a small ♠ from dummy and put the ♠Q on. If it wins you will make your contract, if it loses you won't.

to find out which.

But remember, finesse only work half the time. The other half they lose.

Lead: ♥ Q

North is to play 3 NT. East leads the ♥ Q.

Winners: ♠=0 ♥=2 ♦=2 ♣=4 Total = 8

Needing one more winner you should see right away that it cannot come from ♥s, ♦s, or ♣s. That means you must hope that West has the ♠A. Win the first ♥, then play your 4 ♣ winners ending in dummy.

The moment of truth. You lead a small ♠ from dummy. West plays low and you play the ♠K.

Unfortunately East takes your ♠K with the ♠A. He then plays another ♥ and you at least make 8 tricks but have no hope for a ninth one so you go down 1.

to see the bad news.

Welcome to the real world.

	♦ 8	
	♣ K Q J	
	♠ A 7 4	♦ A 6
	♥ K Q J 9 7 5	
		♣ A 10 5

South is to play 4 ♥. West leads the ♠ K.

Losers: ♠=2 ♥=1 ♦=0 ♣=1 Total = 4

West found the best opening lead for his side, exposing your ♠ losers before you could establish the ♣ suit for a discard. If you start to pull trumps right away the defense will grab the ♥ A, then take their two ♠ tricks and you will still have the ♣ A that you cannot avoid.

Other than the ♦ A the only useful card in dummy is the ♦ Q so you must try to make a winner out of that for a discard. So win the ♠ A, lead your singleton ♦ and finesse the ♦ Q. Your luck has returned, the ♦ Q wins and you discard one of your ♠ losers on the ♦ A.

At this point you have not lost any tricks, and you can see that you have only 3 losers remaining in your hand. So you start pulling trumps and establishing the ♣s.

The risk was worthwhile though since it gave you your only chance of making the contract.
