7 NT by South

When NORTH agrees to a™ s, SOUTH will not stop short of a slam.

The RKCB 4 NT bid tells SOUTH that they have all five Key Cards since NORTH could hardly

have a 2a™£ opening hand with no Aces.

SOUTH's 5

a™¥

bid is the Queen Ask, and NORTH's reply confirms that she holds

the a™ Q, and also has the a™£K.

SOUTH figures the a™ suit will run, and this should be enough for Grand Slam. He chooses 7 NT.

6 ♠ by South

SOUTH knows there are enough points for slam, but she is worried about the trump suit.

NORTH's support doesn't guarantee more than three ♠'s, and if they are not headed

by the Queen she could lose a trump trick.

Her RKCB bid relieves her mind when SOUTH claims two Key Cards PLUS the ♠ Q.

She bids 6♦ (and hopes for a 3-2 trump split!).

When SOUTH makes a slam try with a jump to 3 \hat{a} TM, the best approach for NORTH is to agree on

the trump suit immediately but indicate a minimum hand by bidding 4 \hat{a} TM.

SOUTH's next move is logical; RKCB 4 NT.

NORTH shows zero or three Key Cards, and since it could not possibly be zero, SOUTH knows they are

the \hat{a} TM K and both red Aces. Even possessing all the Key Cards SOUTH knows there aren't

enough points for a Grand slam.

7 NT by South			

It is usually not recommended to use any form of Blackwood when you have a suit with two quick

losers, but SOUTH knows NORTH would not preempt with a 10-high

â™¥

suit.

NORTH's reply to RKCB is 5

â™¥

, showing two Key Cards.

SOUTH knows they are the

â™¥

A

â™¥

K

so she can count thirteen tricks.

She bids a confident 7 NT (and hopes NORTH didn't open 3

â™¥

with a 6-card suit.

5 ♠ by South			

SOUTH has 21 points, and when she hears NORTH make a limit raise she tries for slam with RKCB.

NORTH answers with just one Key Card so SOUTH stops at 5 \hat{a} TM, knowing they are missing

two Key Cards.

Of course she didn't expect the two missing Key Cards to be the Ace and King of trumps!
