duck), and another ♦, (which they will probably take). Win whatever they return, pull trumps ending in dummy, and enjoy your 3♦ winners.

**Baker Establishment 16**

Some pretty aggressive bidding gets you to a challenging game. South is to play 4♥. West leads the ♠K, overtaken by East's ♠A. East returns a ♠ to West's ♠T, and he then plays the ♠Q.

Losers: ♠=2 ♥=0 ♦=1 ♣=3 Total = 6

With 2 tricks already gone you still have 4 losers. You could consider ruffing the 3♣ losers in dummy but that would just create a trump loser even when trumps are splitting 3-2. So it looks like you will have to establish the ♦ suit for discards. You could pull trumps and then play your ♦Q, hoping the defenders will grab their ♦A immediately. But unless they are real novices they will hold it up one round and you'll no longer be able to reach dummy.

The solution is to establish the ♦s before you use up dummy's ♥K.

Ruff the third ♠, then play ♦Q, (which they will

**Baker Establishment 17**

North's 3♦ bid was a transfer to ♥s, and his 2NT bid showed exactly 5 ♥s with an invitational strength hand. South is to play 3NT. West leads the ♠6, you play dummy's ♠9 and East contributes the ♠2.

Winners: ♠=2 ♥=0 ♦=1 ♣=2 Total = 5

The math is easy - you need 4 ♥ tricks. And you should be able to manage that by driving out the ♥A. But the defenders will probably hold up one or two rounds when you play on ♥s, so you must have an outside entry to dummy.

The ♠ Q J will provide that entry IF you make sure to win the first trick with your ♠A as an unblocking move. If you don't do so then West will be able to keep you out of the dummy and away from those good ♥s.

But if you win the first trick with the ♠A, then dummy's ♠ Q J will provide a guaranteed entry to the good ♥s.

Now when you attack ♥'s a defensive holdup won't hurt you because you have TWO ♠ entries, the ♠J by a finesse and the ♠K.

So the ♠ finesse is an odds-on play to get a second dummy entry.

**Baker Establishment 18**

South is to play 3NT. West leads the ♠2, you play dummy's ♠4 and East plays the ♠8.

Winners: ♠=3 ♥=0 ♦=2 ♣=2 Total = 7

Needing just two more winners it looks straightforward to establish dummy's ♥ suit. Suppose you win the ♠T and play the ♥9. If the defenders win this trick you are home free. You win their ♠ return with your ♠A, then continue ♥'s to drive out their last stopper while you still have the ♠K as a dummy entry.

This won't work against good defenders, who will hold up on the first ♥ trick and win the second. Then when they continue ♠'s you won't have another ♥ to return to dummy, so while you can use the ♠K as an entry to establish the ♥'s you will never get back to use the good ones.

Instead you should win the first trick with your ♠A.

5♦ by South

Back to dummy with the ♦Q and ruff the ♠2 with a high trump just to be safe. West drops the ♠9 on this trick.

Pull West's last trump and enter dummy with the ♥A and FINALLY discard a loser on the now established ♠8.

Here you needed ♠ T 9 x to be with West if you were to make the contract so you played for just that holding.

**Baker Establishment 19**

3NT would have been a lot easier, but you didn't get there. South is to play 5♦. West leads the ♠T.

Losers: ♠=0 ♥=1 ♦=0 ♣=2 Total = 3

The good news is that you only have one loser to get rid of. The bad news is that there doesn't seem to be a good place to put it.

Unlikely as it seems, your best candidate for establishment is dummy's ♠8. West is marked with 3 ♠s, and having led the ♠T there is a good chance that he also has the ♠9. If so you can ruff it out.

Cover the ♠T with dummy's ♠J, and when East plays one of his honors ruff in your hand. Play a trump to the ♦T, East showing out. Lead the ♠Q. East will be forced to play his other high honor, (if he doesn't you would discard a loser), and you ruff again.

Back to dummy with the ♦Q and ruff the ♠2 with a

6 ♠ by South

You ruff in your hand, play a trump to dummy's ♠K and ruff the ♣8, establishing the ♣9 while you still have the ♥ entry.

This was a combination of Suit Establishment and End-play. The lesson on Eliminations contains a lot more of this type of hand.

Baker Establishment 20  
South is to play 6♠. West leads the ♠5.

Losers: ♠=0 ♥=1 ♦=1 ♣=0 Total = 2

First pull trumps with the ♠A and ♠Q, both defenders following. Next you must establish dummy's ♣ suit to get rid of one of your losers. If the suit splits 3-3 that will be easy since you have two dummy entries, one to get there to ruff the third ♣ and the other to get there to enjoy playing the winners. But ♣s will probably split 4-2 so the two entries won't be enough. Here's how to make the defenders help you establish the suit.

After pulling trumps, play the ♣ A K, then ♦ A. Next exit with a small ♦.

to see the position.

The defender who won the ♦ trick has a problem. If he plays another ♦ you will get a ruff-sluff, and if he plays a ♥ you will play for the ♥Q and ♥J to be in different hands. So he will probably play a ♣.
