<b>21</b> <b>6 7</b> <b>6</b>	<b>West</b> <b>Pass</b> <b>Pass</b> <b>3 NT by North</b> <b>Lead: ♣ 5</b>	<b>North</b> <b>2 NT</b> <b>Pass</b>	<b>East</b> <b>Pass</b> <b>Pass</b>	<b>South</b> <b>Pass</b> <b>3 NT</b>
-------------------------------------	---	--	---	--

North is to play 3 NT. East leads the ♣ 5. You play low from dummy and West plays the ♣ 6.

Winners: ♠ = 1    ♥ = 1    ♦ = 4?    ♣ = 3  
 Total = 9

Although you have 4 ♦ winners, getting to the last couple might not be so easy. You can make 3 ♦ tricks simply by winning your ♦ A, then overtaking your ♦ J with dummy's ♦ Q. But you need that fourth ♦ winner. Can you get it?

Sure you can, by creating an entry in ♣s. It is likely from the opening lead, (and West's play of a small card), that East has led from ♣ Q T 7 5. If you win the first trick cheaply then you will still make your ♣ A K for three ♣ tricks in all.

So don't win cheaply, win the first trick with the ♣ A. Then unblock your ♦ A J. Next play ♣ K. (on which West discards), and a small ♣ toward dummy's ♣ J 9. You are sure to have a ♣ entry to dummy's ♦s, and you will still get three ♣ tricks, just a different three.

You probably would have played the hand the same way you just did, unblock ♦s, then play ♣ A K and a low ♣ toward the ♣ J 9 trying to get a ♣ entry to dummy.

It is only because the ♣ opening lead gives you the chance for a Cheap-Trick that you are tempted to go wrong.

West      North      East      South  
Pass      Pass      2 NT      Pass  
3 NT      Pass      Pass      Pass

3 NT by East  
Lead: ♠ Q

East is to play 3 NT. South leads the ♠ Q. North plays the ♠ K, then the ♠ 2 when you hold up.

Winners: ♠=1 ♥=0 ♦=4 ♣=1 Total = 6

You are going to have to be pretty lucky to make this contract. You cannot touch the ♥ suit because a defender would take the ♥ A and it would start raining ♠s.

So you will have to get 3 extra ♣ winners, which means the ♣ finesse absolutely MUST work.

In addition to lucky, you are going to have to be pretty good, too. You will surely have to finesse the ♣s at least twice; that means you need two dummy entries. Can you find them?

Maybe in ♦s. Play the ♦ K, then ♦ Q, watching the defender's cards carefully. When both follow twice you know there is only a single ♦ left out, so you play the ♦ J to dummy's ♦ A. Now take the ♣ finesse. It works! Next play your ♦ 5 to dummy's ♦ 6 and take another ♣ finesse. Both defenders follow so your ♣s are good.

Then your chance of success goes way down. You would have to find North with the doubleton ♣ K.

Lead: ♦ Q

but the chances are very slim.

You can play a low ♣ to dummy's ♣ 8. Assuming a defender takes the ♣ T you can win his return and enter dummy with the ♣ 9. This play is guaranteed to give you the entry and is the one you should choose.

When you are missing 4 cards the probability of a 3-1 split is about 50%.

But the singleton can be any one of four cards - in this case it can be the ♣ T, ♣ 6, ♣ 3 or ♣ 2. So the chance of one of the opponents holding specifically the singleton ♣ T is only one-fourth of 50%, about 12.5%.

South is to play 6 ♣. West leads the ♦ Q.

Losers: ♠=0 ♥=2 ♦=1 ♣=0 Total = 3

Partner's hand didn't turn out to be what you hoped for, you had in mind maybe the ♥ K and ♦ Q.

But this is what you got. First, be thankful West led a ♦ rather than a ♥. Second, see if you can find a way to fight yourself over to dummy and those three beautiful ♣s.

You have two possibilities for a ♣ entry, but you can only try one of them as you will see.

You can play a high ♣ and hope somebody plays the singleton ♣ T. Then your ♣ 9 would be an entry. If this works you would probably make all 13 tricks,

need. Do you see a way around this?

Do NOT ruff the second ♠ in dummy, just discard a ♦. If North plays a third ♠ you will ruff in your hand, then unblock the ♣ A, then pull trumps in 3 rounds ending in dummy. And run all those ♣ tricks. If North plays a trump or a ♣ the result will be the same. The defense can get one ♦ trick if they take it right now, but you still make your contract.

West is to play 4 ♥. North leads the ♠ A, then ♠ K.

Losers: ♠ = 1    ♥ = 0    ♦ = 3?    ♣ = 0  
Total = 4?

This is the kind of hand that can get really messy if you aren't careful. You could ruff the ♠, then try to ruff some ♦s, but the defense can prevent you by leading trumps when you give up the ♦ tricks.

All in all a much better plan is to use dummy's ♣ suit after you unblock the Ace. The only flaw with that idea is that when you ruff the ♠, unblock the ♣ A, then play two rounds of trumps ending in dummy, there will still be a trump left out. And the defender might ruff a ♣ before you can take the discards you

♥ Q 7 4  
♦ 10 8  
♣ J 9 5 3

North is to play 3 NT. East leads the ♣ 3, West plays the ♣ A.

Winners: ♠=1 ♥=2 ♦=1 ♣=2 Total = 6

You have the possibility of one additional ♠ winner if East holds the ♠ K. However, ♦s is your best suit and if West holds the ♦ K you could gain all three winners that you need from that suit. But of course you need perhaps 2 dummy entries. Do you have them?

Well, you probably do. East's small ♣ lead probably indicates an honor, and with West playing the ♣ A you can be pretty sure that East holds the ♣ J. So by playing your ♣ K underneath the ♣ A you set up a second entry to dummy via the ♣ finesse.

Assume West now plays a ♥. Take your ♥ A and play a ♣ to dummy's ♣ T. Lead a ♦ and finesse the ♦ J, which holds. Play another ♣ to dummy and finesse another ♦. Now play your ♦ A and smile when the ♦ K drops and your fourth ♦ becomes a winner.

By unblocking the ♣ K you were still pretty confident that you would get the two tricks, but the bonus was in the extra dummy entry your unblock created.

 ♦ K 7 3  
 ♣ A 10 2

East is to play 3 NT. South leads the ♦ 5, North plays the ♦ Q.

Winners: ♠=0 ♥=3 ♦=1 ♣=1 Total = 5

You must take the ♦ K right now or you might lose the first 5 tricks.

It's a shame about that solid ♠ suit, but if you try to win even a single ♠ they will grab the ♠ A and win enough ♦ tricks to set the contract.

So you are going to have to win a lot of ♣ tricks, and do so without losing the lead. You need dummy entries, and they must be in ♥s.

play the ♣ J, again letting it ride when North plays low. Play one more ♣ to your ♣ A, picking up North's ♣ K this time.

The ♣ suit is ready to run, so play your ♥ K to dummy's ♥ A and take your ♣ winners. You took 9 tricks in all, the ♦ K, the ♥ A Q and all 6 ♣s.

Since it gave you all 6 ♣ tricks the sacrifice was well worth it.
