SOUTH has a perfect 1NT opener; a balanced hand with 16 points.

NORTH has 7 points; he knows that the most points the partnership could hold is 24 ($7 + 17$).

Since this is below the 26 point game requirement he passes.

3 NT by South			

SOUTH has an ideal 1 NT opening -

16 points and balanced distribution.

With 12 points, NORTH knows the partnership total is between 27 and 29, enough for game

but not enough to think about slam. Since NORTH also has a balanced hand she bids 3 NT.

SOUTH has 16 points and balanced distribution.

She naturally opens 1 NT.

NORTH has 14 points and balanced distribution so he does the math.

The partnership has at least 29 points (14 + 15).

The partnership has at most 31 points (14 + 17).

Since this is more than the 26 needed for game, but fewer than the 33 needed for slam

NORTH just bids 3 NT, knowing SOUTH will respect his decision and pass.

1 NT by South

When SOUTH opens 1 NT, NORTH knows that he cannot have more

than 17 points. So with her 7 points, she knows there is no reason to respond.
