3 NT by North

You dealt this hand. Decide what you would bid, then on BID above.

With 23 points you naturally open 2 ♣. Partner responds 2 ◇. What do you bid next?

You have 23 points and no 5-card suit. Since your hand is balanced you bid 2 NT. Partner raises to 3 NT and you pass.

2 NT by East

Decide what you would bid, then on BID above.

With only 2 points you make a Negative 2 ◊ response to partner's 2 ♣ opener. He now bids 2 NT. What is your bid?

This isn't as clear-cut a decision as you might think at first. Partner is showing 22-24 points, and even though you only have 2 points it is possible that the partnership total could be 26. The thing that should convince you to pass is that a 24-2 point split doesn't play nearly as well as say a 13-13 split would. Lack of transportation would likely kill any chance of 3 NT (or 4 ♠). So you pass.

3 NT by West

Decide what you would bid, then on BID above.

With only 4 points you make a Negative 2 ♦ response to partner's 2 ♣ opener. He now bids 2 NT. What is your bid?

True, 4 points isn't much. But added to partner's 22-24 it becomes enough for a game. Your problem isn't whether to bid to the game or not, (you definitely will), but whether you should use Stayman to find out if there is a 4-4 ♠ fit. You decide not to do this because your 4-3-3-3 distribution removes the possibility of you getting any ruffs. So you bid 3 NT.
