dummy and you now discard the ♠2. East takes the ♥A and he can see that you don't want him to lead a ♠ or a ♦. He deduces that you might like a ♣ so he plays his ♣2 and you win 4 tricks.

[showcards W:H5 N:HT]

You are West. The bidding has been as shown.

Partner led the ♥5, dummy played the ♥10

Play the ♦3 (or the ♠2).

You really want East to lead a ♣ if he gets into the lead. If you discard the ♣9 East will surely get the message and will lead a ♣. BUT - you will only win 3 ♣ tricks. The ♣9 would have been the fourth winner.

So instead, play a low card in one of the other suits, say the ♦3.

North is one trick short and he sees he can easily get that trick in ♥s. So he plays a second ♥ from

You are West. The bidding has been as shown. You led the ♥4, East takes the ♥A and returns the ♥3. You ruff and then play what???

Play a low ♣.

Partner played the ♥3, a low card, for you to ruff. That means his re-entry, if he has one, is in the lower-ranking suit.

Partner takes the ♣A and gives you a second ♥ ruff.

cash another ♣, then cash your ♦ Q. That first signal led to your side winning the first 6 tricks. Wow.

[showcards W:DA N:D3]

You are West. The bidding has been as shown.

Partner led the ♦ A, dummy played the ♦ 3

Play the ♦ 2.

You know partner also has the ♦ K, and normally you would give an encouraging signal when you hold the Queen. But with this hand you want partner to switch to ♣s as soon as possible. So you play a low ♦.

East looks at your signal, then looks at dummy, then looks at your signal. He knows you want a switch and it looks like a switch to ♣s might work the best. North plays a low ♣ from dummy, you win the ♣ J. Next you play a low ♦, taken by East with his ♦ K. East leads a ♣. Dummy plays the ♣ K, you win that,

[showcards W:HA E:HQ S:H5 N:H6]

You are West. The bidding has been as shown. You led the ♥ A, East puts on the ♥ Q. It's your play.

Play the ♥ 2.

East's ♥ Q is either a singleton, (practically impossible), or a signal showing that he also holds the ♥ J. In either case you can reach the East hand on the second trick by playing a low ♥. Since you don't particularly want to start playing ♦ s from your side, you go ahead and play a small ♥, won by East with the ♥ J.

East next plays the ♦ Q and however South tries it your side will take the next two ♦ tricks and set the contract.
