Lead: ♥9  
 done on his own.

The bidding has been as shown. The contract is 3NT

Lead the ♥9, the top of nothing.

Your ♣s are so good that all your instincts tell you to lead the ♣8, and perhaps set up 3 winners.

If you had one more small ♣s your instincts would be right, but with only a 4-card suit you should think a little longer. Three tricks won't set this contract, so you must depend on partner winning something. And if partner is going to win something perhaps he will lead a ♣ and you might make FOUR tricks in the suit.

So lead the ♥9. You lead a high card so partner won't be tempted to return the suit when he gets the lead. Note that although this lead finesses partner's ♥Q, it didn't do anything that declarer wouldn't have

Declarer must play ♦s to get some winners, and when East takes the ♦A he will surely switch to the ♣J. Down goes declarer.

4 ♠ X by South

Lead: ♠ A

the two trump plays he could have ruffed all three of his ♥ losers and actually made the contract.

The bidding has been as shown. The contract is 4 ♠ doubled

Lead the ♠ A.

South's 2 ♠ bid is a Weak-jump Overcall, based on a 6-card ♠ suit and a weak hand.

Either the ♦ Q or ♥ J would normally be good leads.

But on this deal North/South have clearly sacrificed against your almost certain ♥ game. Since they don't have enough high-card strength to make this contract declarer is hoping to get some ruffs.

The way to cut down the number of ruffs he can make is to lead a trump at every opportunity.

So take the ♠ A and then play another ♠. Declarer will still be able to ruff one ♥ in dummy, but will be left with two losing ♥s and will be down 2. Without

The bidding has been as shown. The contract is 3NT

Lead the ♥3, fourth highest in an attacking suit.

Sometimes it comes down to just this kind of choice. Do you lead fourth down from ♠ K 8 7 3 or from ♥ Q 10 7 3.

The presence of the ♥10 bolsters the ♥ suit enough to give it the edge.

The suits could be arranged something like shown at left. With a ♠ lead the presence of the ♠10 in dummy allows declarer to make a second ♠ trick, which happens to be declarer's ninth trick.

But when you lead the ♥3 it does not promote a ♥ winner for declarer, and left to his own devices, he cannot establish the ♠ winner.

6♠ by South

Lead: ♥3

The bidding has been as shown. The contract is 6♠

Lead the ♥3.

The ♣10 would probably be a very safe lead. But you don't want "safe", you want "attack".

Dummy has advertised a long, strong ♦ suit which declarer will no doubt establish for discards.

It is important for your side to create a winner before your ♦A is forced out. The most likely looking winner is your ♥K. So lead the small ♥ and hope partner has the Queen.

Lead: ♠ 4

With any other lead declarer will make the contract.

The bidding has been as shown. The contract is 3NT

Lead the ♠ 4.

If partner had not doubled the contract you would probably have started with the ♥ 10, or possibly the ♣ 2.

But partner DID double, and most good players play that doubling 3NT is lead-directing as follows: If you have bid a suit, lead it. If doubler has bid a suit, lead it. If neither of you has bid, lead dummy's first bid suit.

So lead a ♠, certainly not a lead you would have made without the double. Partner immediately establishes 4 ♠ winners and he has the ♦ A for an entry.

| Lead: ♣8    |       |      |       |

The bidding has been as shown. The contract is 4♥

Lead the ♣8.

If partner had not doubled North's Stayman 2♣ bid you would probably have started with one of your Jacks.

But partner **DID** double, and the double of a conventional bid clearly means that the doubler would like you to lead that suit.

So lead a ♣, and partner will take three ♣ tricks. With any other lead declarer would quickly discard a ♣ from dummy on a high ♦, easily making the contract.

Declarer may still make the contract if he guesses the ♥Q correctly, but maybe not.
