Even with a 6-card ♠ suit SOUTH uses Stayman because he also has a 4-card ♥ suit. Given a choice, playing a 4-4 Major fit is usually preferable to a 6-2 or even a 6-3 fit.

But here NORTH doesn't have four ♥s so SOUTH just bids the game where he knows the partnership holds eight trumps.

SOUTH breaks the expected Transfer sequence by jumping to 3♥ instead of bidding just 2♥. This is called the "Super Accept" and it shows a hand with four of the trump suit with maximum point count.

NORTH's ♣ bid and SOUTH's ♦ bid are Control bids, showing first round control of the suit that was bid.

NORTH uses Stayman because he has a 4-card ♠ suit.

SOUTH's 2♥ response wasn't exactly what NORTH was hoping for, so NORTH decides to bid 3NT.

SOUTH absolutely knows that NORTH holds a 4-card Major - and also knows that it isn't ♥s. So SOUTH bids 4♠.

NORTH has a rotten hand, and many players would just pass 1NT.

But NORTH figures that having SOUTH play any 4-4 fit would be better than 1NT so he bids 2♣, Stayman. This is called "Garbage Stayman", and you can see why.

SOUTH bids 2♥ and NORTH passes. He would have passed either 2♠ or 2♦ also.

Just having a 4-card Major doesn't mean you must automatically use Stayman.

Here NORTH has a 4-card ♠ suit, but decides not to seek a 4-4 fit because his hand wouldn't have any ruffing values in a ♠ contract. He bids 3NT.

Notice that even though SOUTH also has four ♠s the 4-4 fit is not useful to them in a ♠ contract because neither hand can ruff any losers.

NORTH has an invitational (9 point) hand with five ♠s.

She bids it in the standard way - first transfer SOUTH to ♠s, then invite the game by bidding 2NT.

SOUTH, with 17 points and three ♠s, accepts the game invitation and chooses 4♠.
