If you thought you couldn't bid 1 ♠ because it would have been a Reverse just think again.

A Reverse is when you bid a higher-ranking second suit **at the 2-level**. This is just normal bidding of suits up the line.

Partner now takes control and bids the ♠ game.

Don't bid 2♥. That would be a Reverse, showing at least 17 points. A 2♥ bid would also show longer ♣s than ♥s. Don't bid 2♠. That would be showing 4-card support.

So with your minimum hand you bid 1NT which partner raises to 3NT.

At your first turn you bid your ♥ suit, up-the-line.

You only have 7 points, but partner Reversed so you cannot pass. You need to make a bid to show your minimum, and you cannot support either of partner's suits, nor can you rebid your ♥s.

However, you also cannot bid your ♠ suit. That would be fourth-suit-forcing, and would show a game forcing hand of 9 or more points.

Instead you bid 2NT. Partner has a bare 17 so he passes.

With 18 points you have enough to make a Reverse.
So you bid 2♦. Partner now says 3♠.

Partner's jump bid shows a 6-card suit and enough
points to insist on game. You don't have ♠ support
but you do have good ♥ stoppers so you bid 3NT.

With his Reverse, partner has shown at least 17 points and at least 4 ♥s.

You could fall back on the guidelines and say that with 10 points you need to make a positive bid at this time, but it is simpler to just rely on "SHE WHO KNOWS, GOES."

Since you know of an 8-card ♥ fit and at least 27 points you bid 4 ♥.

It may be tempting to open 1♥, planning on Reversing in ♠ at your second turn to show your big hand.

Don't. A Reverse should always show an unbalanced hand with the first suit longer. So you open 1♠ and partner replies 2♠.

If you had opened 1♥ partner would have replied 1NT. Then when you Reversed with 2♠ he would have assumed you had a 4-card ♠ suit and would probably have put you back in ♥s, your known 5-card suit.

Things would have gotten confusing, to say the least.

You would really love to pass. You have a terrible hand and you like the ♦ s better than the ♣ s.

But you are forced to bid. And since partner has 5 ♣ s and only 4 ♦ s, you should take him back to his first suit.

Mercifully he passes.

When partner shows 17+ points with his Reverse you are sure you belong in game. Since he did not support your ♠s you know he doesn't have four of them. You also know you have an 8-card fit in ♦s, but surely nine tricks in Notrump will be easier than eleven in ♦s.

With 17 points you have a perfect hand for a Reverse. So you bid 2 ♦. Partner then says 3 ♣.

Partner's return to your ♣ suit shows he has fewer than 9 points. Although it is possible to devise a hand for him where your side could make 3NT, the risk is too great.

So you pass. It's a good thing, too.

You have an ideal hand for a Reverse, so you bid 2 ♥.

Partner now bids 3 ♦.

Partner has a minimum hand, but at least he came up with a preference for ♦s.

There are no guarantees here, but you should probably try 5 ♦.
