6♦ by North

Lead: ♥K
dummy on the third ♦.

North is to play 6♦. East leads the ♥K.

You have 11 winners; 1 ♠, 1 ♥, 6 ♦s and 3 ♣s.

At first things look hopeless, but remember this is a lesson on squeeze plays. From the opening lead you know that East must hold the ♥Q. If he also holds the ♠K you will be able to squeeze him in ♥s and ♠s.

You let the ♥K win, (hoping he will play another ♥), but he plays a small trump instead which you win in your hand.

Pull one more round of trumps, then unblock the ♠A.

Then take your 3 ♣ winners, ending in your hand.

Now play ♦Q, ♦J, ♦9. Discard the ♠5 from

[showcards N:SQ,HA,H8 E:SJ,S9,H9 S:HJ,H7,D7 W:SK,HQ,HT]

East could afford to throw 2 ♠s and a ♥ on your ♦ plays.

But when you play the ♦7 he is squeezed.

He cannot dump his ♠K because you would throw the ♥8 and dummy would be high.

So he will discard the ♥10 instead. At this point you know that the ♠Q is worthless so you discard it. You win the final two tricks with the ♥A and ♥J.

East is to play 4♥. South leads the ♣J. North wins

♣ A K Q then switches to a trump.

North takes ♣ A K Q then switches to a trump.

You must win the next 10 tricks but you only have 9 winners.

North opened 1NT, showing 15-17 points, and South has already produced 2 Jacks. So both the ♠Q and ♦K are with North and you will have to put the squeeze on him.

4♥ by East

Lead: ♣J

You plan to squeeze North by running the long ♥s in your hand, but the problem is that the ♦Q is not a Threat card yet. To make it a Threat you need to unblock dummy's ♦A. So play the ♦A, then pull trumps with the ♥A Q.

You are in dummy, having won their trump exit with the ♥K.

Since you need all the tricks the count is already rectified.

Unblocking the ♦A to make your ♦Q a squeeze Threat is called the Vienna Coup.

With 6 cards left to be played you are ready to apply pressure to North.

Play the ♥9 8, discarding ♦s from dummy. North is not troubled yet, he can discard the ♦J and the ♠3.

[showcards N:SA,SK,SJ,D6 E:SQ,ST,S9,DK S:S8,S7,H6,DQ W:S6,S5,D9,D8]

North is now looking a little nervous, like he has a big target on his back!

Play the ♥6 and throw dummy's ♦6.

North can choose his fate. If he throws the ♠9 you will know that his ♠Q will drop since his third card **MUST** be the ♦K. So you would just play to the high ♠s and the ♠J would be good.

Or, he can throw his ♦K which makes your ♦Q a winner.

That worked great, right? Let's back up and pretend you had NOT unblocked the ♦A. We will just add one ♦ to everybody's hand and look at the ending.

Now when you play your ♥6 as a squeeze card you have a problem. You are squeezing dummy, not North.

If you discard the ♦6 North will throw his ♦J, then sit back and wait for his ♠Q trick.

But if you discard dummy's ♠J instead, North will match that by throwing his ♠9, then sit back and wait for his ♦K trick.

Only by visualizing the ending and using the Vienna Coup can this hand be made.

6 ♣ by South

Lead: ♥ K

♠ Q is the Vienna Coup.

South is to play 6 ♣. West leads the ♥ K.

You have 11 top tricks and hope for a 3-3 ♦ split to give you one more. If they don't split you can hope that the defender with 4 ♦ s also holds the ♠ K and that a squeeze will be possible.

In case the squeeze becomes necessary you should rectify the count, so you win the first trick, pull trumps in two rounds, then give up a ♥ trick.

West takes the ♥ trick and plays the ♦ 9 which you win with your ♦ Q.

You now make the key play of taking dummy's ♠ A before running three rounds of ♣ s.

[showcards N:S2,DA,DK,D8 E:SK,DJ,DT,D7 S:SQ,D5,D4,C7 W:SJ,ST,HQ,D2]

Unblocking the ♠ A to create a Threat out of your

As you see, East was able to find discards on your first three trump leads, but when you play the ♣ 7 and discard dummy's ♠ 2 he is squeezed.

He can see that if he discards a ♦ dummy will be high, so he will probably throw the ♠ K in hopes that his partner holds the ♠ Q. But you have that card and you make the slam.

As an afterthought to this Deal, let us suppose you were playing 6NT rather than 6 ♣.

The only difference would be that to rectify the count you would have to hold up once on the opening ♥ K.

Lead: ♦ Q			

Don't play ♠s yet!

Play your ♦ A. South must give up.

If he throws the ♣ J, you win. But if he throws a ♠ you also win. This is what is called a Win-Win bridge play.

East's 3NT rebid shows 6 ♠s headed by A K Q and nothing else. West is to play 7NT. North leads the ♦ Q.

Nice hand. You have 12 high card tricks and either a 3-2 ♠ split or a 3-3 ♣ split will land this Grand Slam. But even if neither suit splits nicely you can STILL make it if the same defender holds 4 cards in both suits; in that case you will squeeze for the thirteenth trick.

Win the ♦ K and (**IMPORTANT!**) test the ♣s first by playing ♣ A K Q. Darn. North discards a ♦ on the ♣ Q.

Alright, so South holds the ♣ Guard. You still need to exercise caution.

Play your 4 ♥ winner's next. North follows suit while South follows twice, then discards 2 ♦s.

6NT by North

Lead: ♦ J
♠ K Q.

North is to play 6NT. East leads the ♦ J. West takes the ♦ A and returns the ♦ 2.

Your 4 ♠ tricks, 2 ♥ tricks, 1 ♦ trick and 4 ♣ tricks are very easy to find. But that's only 11, so where in the world can you possibly find number 12?

With all those high ♦ s falling on the first two tricks dummy's ♦ 9 has become a threat against East. If it should happen that East also holds the only ♥ stopper you can squeeze him in the red suits.

You are going to now run your black suit winners, but take the ♣ s first so you can be playing winners from your hand when you squeeze East.

On the last 2 ♣ s East discards a ♦ and a ♥.

Now come to your hand with the ♠ A and play the

You discard a small ♥ from dummy while East follows suit three times.

[showcards N:HA,HK,H8,D9 E:S9,HJ,H4,D6 S:SJ,H9,H5,H3 W:HQ,HT,H7,DT]

It is time.

Play your ♠ J and watch what East discards.

If he holds on to the ♦ 10 you will discard dummy's useless ♦ 9 and hope the ♥ s all fall under the ♥ A K.

If he discards the ♦ 10 then you throw dummy's small ♥ and dummy wins the last three tricks.
