SOUTH's 3♠ supporting bid is enough to convince NORTH to make a slam try.

NORTH bids Blackwood 4NT. If SOUTH shows one Ace NORTH plans to bid 6♠, but when SOUTH bids 5♣ NORTH settles for 5♠

SOUTH makes a positive 3♥ response to NORTH's 2♣ opener. This promises at least 8 points and a 5-card suit with two or more honors.

NORTH only needs to know one thing - how many Aces in the SOUTH hand. A Blackwood 4NT tells her the answer is one, so she bids 6♥.

When NORTH opens 1NT, point-count alone tells SOUTH that 6NT can surely be made. NORTH is bound to hold at least two Aces. But SOUTH doesn't want to miss a Grand slam.

SOUTH bids 4♣, (Gerber), and NORTH admits to just two Aces.

So SOUTH settles for the small slam.

SOUTH has a powerhouse and knows she will reach a slam somewhere. When NORTH supports the ♠s, it seems she has found her spot.

Blackwood tells her that NORTH has two Aces. She can see there are 12 tricks available and decides to take a chance that NORTH will have a thirteenth trick somewhere among his opening hand points.

She bids 7NT.

SOUTH is tempted to go right to 6♥ when she hears NORTH's positive response. BUT, she should use Blackwood first.

It's good thing she did because NORTH admits to only one Ace - they are missing two Aces.

NORTH not only has 20 points, he also has a lot of winners. So when SOUTH jumps to 2NT, showing 13-15 points, NORTH uses Gerber.

SOUTH shows two Aces so NORTH decides 6NT will be just right.
